Priyanjit Ghosh

Our vision is to provide affordable AI to all

Hyderabad

Summary

Priyanjit is the co-founder and business head of Codevector Labs, an Artificial Intelligence based product and services company that aims to help startups, SMEs and large enterprises implement AI in their workflow.

His key skills are in the areas of business development, marketing, strategy and AI consulting . He also consults government agencies to help strategize on AI projects and policies.

He has co-founded Logy.AI, an award winning AI platform to perform diagnosis of diseases, which is democratizing the way rapid clinical AI models are made.

Reach out to discuss about any AI project or implementation.

Experience

Codevector Labs - AI solutions

Hyderabad, Telangana, India

CodeVector provides Artificial Intelligence solutions and services to SMEs and technology startups.
Focus industries include (but not limited) to sports, surveillance, retail, smart city, manufacturing, etc.

Logy.AI (Healthcare AI)
Co-Founder
May 2019 - Present (1 year 4 months)
Raipur, Chattisgarh, India

Artificial Intelligence in healthcare diagnostics sector. Currently we are operating in Indian and Singapore market.

Tamil Nadu e-Governance Agency
Artificial Intelligence Consultant
August 2020 - Present (1 month)

Consulting for AI policies and also for implementing of AI projects in the state of Tamil Nadu

100YoungMinds
Initiator
March 2019 - Present (1 year 6 months)
India

I started the 100YM initiative to create a community of young student entrepreneurs who believes in peer-based learning.

There are no mentors in this community.

Only passionate young people who wants to build something but not exactly sure how to go about the journey or where to start.
